Ronald McDonald House®
Greater Denver

Offsite Volunteer Projects

There are wonderful ways for volunteers of all ages and group sizes to support the families of Ronald McDonald House Greater Denver from any meeting location, home, school, or office.

Decorate Snacks or Assemble Snack Bags!

Healthy snacks are vital for families spending long days at the hospital. Use Ziploc or cellophane bags to assemble individually wrapped, store-bought, and shelf-stable snacks. Expiration dates should be at least two months in the future. If you include a note, please don't use any religious content or illness related messaging such as "Get well soon".

Alternatively, individually wrapped snacks can also be donated loose and decorated with fun, personalized, or seasonal wrapping to stock our lobby.

Assemble Activity Bags or Craft Kits!

Activities can be enjoyed by all whether at the hospital or in the house. You can use any type of bag or container (cellophane, Ziploc, gift bag, canvas) to assemble coloring books, colored pencils, stickers, crosswords, puzzles, fidget toys, and more for children or adults.

You can also create craft kits for all ages, such as: design a bookmark, make a bracelet, make finger puppets, design a greeting card, make pipe cleaner critters, and more! Include all necessary supplies and easy instructions. Please no loose glitter or paint.

Host a Wish List Drive or DIY Fundraiser!

Hosting a wish list drive or organizing an event not only provides much-needed funds and items for our guest families but also helps spread awareness of our organization for future support.
